F O R E W O R D

We present with pleasure this new 1949 edition of the Andrews Real Property Guide for San Francisco that has become through the years so increasingly important to the Real Estate profession and to many other fields interested in home owners.

Each edition of this Guide contains many thousands of changes in property ownership, which makes its completion a long and tedious task. There are approximately 65,000 property ownership changes in the 1949 Guide from the last edition, due to the great activities during the past few years. A copy of this new Guide is therefore essential to every operator.

We wish to extend our hearty appreciation to the office of the County Assessor and his efficient staff for their splendid cooperation. Without their help and interest this book would not be possible.

EXPLANATION:

The FIRST COLUMN shows the STREET ADDRESS of the PROPERTY.

EVEN numbered sides of streets are shown first, followed by the ODD numbered sides.

The SECOND COLUMN the LOT and BLOCK NUMBER. The block number is always preceded by the number sign (#) and is placed at the top of the LOT series.

The NAME of the Owner then appears in the THIRD COLUMN.

When the PROPERTY is UNIMPROVED the letter "V" appears in the ADDRESS COLUMN and when a building's street address is unknown the letter "B" is shown.

Wherever possible the nearest CROSS-STREET is shown when the property is unimproved.
